To whom it may concern

Mr. Fu-Lang, the master of martial arts comes to our kindergarten to teach Kung Fu for 2 years. He expresses a great deal of interest and love for martial art, kids and discipline. Boys and girls 3-6 years old get always very excited when he comes to our gym every week. They practice how to use their body and minds in an fun and educative way.

We would recommend Frankie to every kindergarten because he brings energy and fun in martial art. He will be an asset to any educational organization both in and out of the classroom.

Respectfully yours,

Pruhonická Labuť international kindergarten
